Pet Name: _____ Type: Cat Dog Gender: Male Female Age: _____

Breed*: _____ Colors _____ Feral cat? Yes No Unsure

(*English Bulldogs – see note below)

How long have you owned this pet? _____ Weight*: _____

(*clinically obese - see note below)

Is this animal a patient of HSAC Vet Services?: Yes No

Medical Notes/Issues: _____

Would you like to make a donation to help an animal in need? \$2 \$5 \$10 \$ _____

Would you like your pet micro-chipped as a means of permanent identification (\$25)? Yes No Unsure

I understand that the Humane Society of Atlantic County acts as a satellite clinic where New Jersey licensed veterinarians perform reduced cost spay/neuter surgeries to reduce pet overpopulation. I understand the risks involved and that the Humane Society of Atlantic County can not be responsible for medical complications caused by medical conditions either known or unknown. It is my sole responsibility to ensure that my animal is healthy enough to undergo the requested or recommended procedures. In order to reduce the overall costs to the client, exams are not given prior to anesthesia on the day of surgery; however a full physical exam and pre-surgical blood work can be done by scheduling an appointment through our Veterinary Services Department at an additional cost prior to the surgery date. It is always a good idea to have your pet checked by your regular veterinarian prior to any surgery to ensure he/she is healthy enough for anesthesia. I understand that no external monitoring is used on my pet during surgery. I understand that the clinic is not staffed 24 hours a day, but that someone is in the building from at least 8am to 3pm seven days a week except major holidays. Feral cats are ear tipped to identify them as being altered. Animals with fleas are treated, at the owner's expense, with a topical flea treatment of our choice. ***Dogs that are clinically obese, weigh more than 99 pounds, or are of the English Bulldog breed** are no longer done through our Spay/Neuter Clinic due to increased inherent risks; they can however be done through our on-site Full Service Vet Clinic. Note that all fetuses are always aborted during the spay procedure.

It is strongly recommended that dogs be tested for Heartworm Disease and cats be tested for FELV/FIV, which can be done the day of surgery.

I, being responsible for the above animal, have the authority to grant you my consent to operate on my pet and provide the services indicated on the rear of this form. I understand that there are certain risks to anesthesia that could include serious bodily injury or death and these risks are present in any procedure that requires general or intravenous anesthesia. I hereby waive any and all claims against the Humane Society of Atlantic County, its contracted veterinarians, staff, and volunteers for any and all damages which could possibly include death. All complications resulting from treatment administered at the Humane Society of Atlantic County may be treated through our full service veterinary hospital at a reduced rate. **The Humane Society of Atlantic County will not reimburse me for any treatments performed at any other veterinary facility under any circumstances.** By providing my email address, I consent to receive communications from the Humane Society of Atlantic County Shelter and Veterinary Services.

I have read, agree to, and understand everything printed on both pages of this form.

Date _____ Print Name _____ Signed _____

Payment is required at the time of drop off and can be made by Visa, Master card, or Cash. Personal checks are not accepted.

Instructions: After completing this form, mail or fax it to the address below. Call between 9am and 3pm to schedule an appointment. **Please give us at least 24 hours notice if you need to cancel your appointment to avoid a \$35 charge.** Pets not picked up on time will incur a \$25 (cat) or \$35 (dog) charge. Friday pickup is Saturday 8- 8:30am and Wednesday pickup is Wednesday 4:30-5:00 pm **Withhold Food and Water at least 12 hours prior to surgery.** All cats must be in a carrier and all dogs must be on leash and wear a buckle collar so we can attach the Elizabethan Collar properly.

		Feline De-wormer:	\$16 - \$19
Feral Cat Ear Tipping	No Cost	Ear Mite Treatment	\$21

Hernia repair, Dewclaw removal, Pyometra and Cryptorchid surgeries will be additional charges and quoted the day of surgery. Prices for products or services not indicated on this form may vary by size, weight, or species and will be quoted upon request. Medical conditions not known or disclosed may increase the amount quoted. We will make every attempt to notify you at the numbers you provide for authorization. If you can not be reached, the surgeon will decide if the procedure is required based on the health of your pet.

Booster vaccines may be needed to provide full protection for your pet. Please follow up with your regular veterinarian or our Vet Clinic for booster vaccines.

If your dog is aggressive or difficult to handle, please leave him/her in the car while you sign in. There is an additional fee charged (\$50 minimum) due to increased anesthetic costs and amount of work needed to ensure safe handling. We will assist you in bringing him/her into the clinic.

Mature male Dogs may benefit from having a scrotal ablation (removal of the scrotal sac) performed while being neutered to reduce the likelihood of post-operative complications. This procedure is strongly recommended for large and highly active male dogs due to increased likelihood of post-operative swelling, bruising, and discomfort.

For your pet's comfort, a pain management injection is given prior to surgery and included in the surgical fee. Take homes are available if needed at an additional cost. Additional fees are charged for any medications being sent home with your pet.
