Hernia repair, Dewclaw removal, Pyometra and Cryptorchid surgeries will be additional charges and quoted the day of surgery. Prices for products or services not indicated on this form may vary by size, weight, or species and will be quoted upon request. Medical conditions not known or disclosed may increase the amount quoted. We will make every attempt to notify you at the numbers you provide for authorization. If you can not be reached, the surgeon will decide if the procedure is required based on the health of your pet.

Booster vaccines may be needed to provide full protection for your pet. Please follow up with your regular veterinarian or our Vet Clinic for booster vaccines.

If your dog is aggressive or difficult to handle, please leave him/her in the car while you sign in. There is an additional fee charged (\$50 minimum) due to increased anesthetic costs and amount of work needed to ensure safe handling. We will assist you in bringing him/her into the clinic.

Humane Society of Atlantic County Spay/Neuter Clinic

A \$3 medical waste fee will apply for each surgery.

Mature male Dogs may benefit from having a scrotal ablation (removal of the scrotal sac) performed while being neutered to reduce the likelihood of post-operative complications. This procedure is strongly recommended for large and highly active male dogs due to increased likelihood of post-operative swelling, bruising, and discomfort.

For your pet's comfort, a pain management injection is given prior to surgery and included in the surgical fee. Take home meds are available if needed at an additional cost.

Additional fees are charged for any medications being sent home with your pet.
